

## Science

The children are using classification keys to study the biodiversity of the school grounds. This will look at plants and animals and the different habitats that the school has created. They will complete their tree study which is a long-term science investigation, looking at changes overtime.

## Maths

To continue the 'problem of the day' developing our bar modelling skills. To measure length and capacity, to convert units of measure and improve our understanding of decimal numbers.

## PE Athletics

## RE

Pupils will be able to investigate: Why is it important to Christians that God is Father, Son and Holy Spirit?

## Geography

To develop fieldwork skills to map and measure the school grounds; To compare physical and human features of their locality and look at how they are represented on maps.

## Spanish

Research, plan, prepare, cook and evaluate a healthy stir fry/salad using seasonal ingredients mainly grown in the school garden.

## Computing

Year 5 Coding using Discovery Espresso Education.

## English

**TEXT:** The Last Wild by Piers Torday

**Genre:** Adventure

Discuss words and phrases that capture readers' interest and imagination; Draw inferences about characters' feelings, thoughts, emotions and actions. Ask questions to improve their understanding identifying how language, structure and presentation contribute to meaning; Predict what might happen from details stated and implied.

**Writing:**

Plan writing by identifying the audience for and purpose of the writing, draft and write by selecting appropriate grammar and vocabulary; describe settings, characters and atmosphere, integrate dialogue to convey character and advance action; write the next chapter in the story.

## Music

To compose and perform a piece of music around a theme.
