

Task 1 – English

Write a poem about the beauty of space.

Spend time looking at pictures or an evening outside, gazing up at the night sky.

Then create a bank of creative and descriptive words and phrases.

Have fun arranging these words – be playful, creative and imaginative – into your own poem. It could be a shape poem, a song, a ‘found’ poem.

Task 4 – History

Moon Landing

Research someone who landed on the moon.

Create a fact file.

Task 2 – Maths

Create a set of space themed top trumps cards.

- Draw a picture of the planet
- Choose 4 – 5 categories, e.g. diameter, mass, distance from the sun (remember to include the unit of measurement)
- Research the answers for each category

A Voyage of Discovery – Earth and Space

Homework

Complete one homework task each week, at home. You get to choose which task to do each week (there is no set order). You also get to choose how to present the task. You are expected to put effort into this and for it to be **detailed and well presented**.

All homework is to be posted on Class Dojo by Tuesday morning.
Have fun!

Task 5 – Art & Design

Create a 3D model or 3D poster

Make a 3D model or 3D poster of the solar system. Think about the shape, size, position and colouring/detail of each planet.

Task 3 – Science

Keep a sky at night journal for a week.

- Look very closely at the sky each night.
- Draw a picture of the moon every night. Does it change over the course of the week?
- Draw any constellations you can see
- Note down any other observations you make.

Task 6 – Geography

Space Centre

You have been selected to design a new space centre for Norfolk. What would you include? Design a map of the new Norfolk National Space Centre, showing what there is to see and do. Include a key.
